## **New shared responsibility at Romaco Innojet**

### **Michael Van den Bossche appointed new joint Managing Director of Romaco Innojet**

**Michael Van den Bossche has just been appointed new Managing Director of Romaco Innojet. He will share the running of the company with Bastian Käding, who has been at the helm of Romaco Innojet since 2018.**

Romaco Holding GmbH has just announced the appointment of Michael Van den Bossche as new Managing Director of Romaco Innojet with effect from 1 August 2020. In his new role he will be responsible for Sales, Laboratory, Customer Service and Product Management. Van den Bossche will share the management of Romaco Innojet with Bastian Käding, who has been at the helm of the company since 2018 with responsibility for Project Management, Engineering, Operations and Administration.

Prior to joining Romaco Innojet, Belgian-born Van den Bossche, who holds a master's degree in biochemical engineering, worked for various leading international players in the business of processing technologies, process design and development. In the course of his professional career spanning nearly two decades, he has gained extensive experience in the sale of processing solutions for the pharmaceutical and food industries. During the last few years, he has increasingly focused on continuous technologies for manufacturing pharmaceutical solids. Van den Bossche has lived in Germany since 2017.

“We’re delighted to welcome Michael Van den Bossche on board as new joint Managing Director of Romaco Innojet”, explained Jörg Pieper, CEO Romaco Group. “His expertise when it comes to strengthening global sales structures and his strategic approach to the development of new business segments are impressive. We’re in no doubt that Mr. Van den Bossche will make a lasting contribution to the success of the Romaco Innojet brand.”

“I’ve always been very sales-minded and service comes top of my list of priorities”, Michael Van den Bossche emphasised. “I’m also extremely familiar with the industry and I know exactly what our customers are looking for – in us and in our technologies. The expectations people place in suppliers are particularly high in the pharmaceutical industry with its strict regulations. There’s a high demand for enduring technologies and cost-effective solutions that give customers a competitive advantage.”

### **Romaco Group**

Romaco is a leading international supplier of processing and packaging equipment specialising in engineering technologies for pharmaceutical solids. The group provides individual machines and turnkey solutions for manufacturing and packing powders, granulates, pellets, tablets, capsules, syringes and medical devices. Romaco also serves the food and chemical industries.

The Romaco Group has its headquarters in Karlsruhe (Germany) and is part of the Truking Group, a globally operating high-tech enterprise based in Changsha (China). Truking’s core competency is handling and filling pharmaceutical liquids.

Romaco operates from four European business sites, with a broad portfolio comprised of six established product brands. Noack and Siebler (Karlsruhe, Germany) supply blister, heat-sealing and rigid tube filling machines. Macofar (Bologna, Italy) markets technologies for filling sterile and non-sterile powders and liquids. Promatic (also Bologna, Italy) specializes in cartoners, track & trace systems and case packers. Kilian (Cologne, Germany) offers compression solutions for tableting while Innojet (Steinen, Germany) is an innovation leader for granulation and coating.

More than 650 highly skilled and committed Romaco employees are dedicated to the development of future product technologies and to the continuous implementation of internal improvement processes. Romaco’s multi-brand system solutions are sold worldwide through six Sales & Service Centres and a dense network of local agent organisations. Over 12,000 installations delivered by Romaco are currently in use in more than 180 different countries.
